SAA INDUSTRIAL SAFETY COLOUR CODE AS OUTLINED IN THE AUSTRALIAN STANDARD AS1318:

RED/RED & WHITE: Indicates the location of danger, fire protection equipment & apparatus, stop buttons & emergency stop controls.

YELLOW/YELLOW & BLACK: Used for marking places where caution should be exercised in addition, yellow markings should also be used where radiation hazards from radioactive materials exist.

GREEN & WHITE: Used for denoting safety & for indicating the location of safety & first aid equipment (other than fire fighting equipment).

BLUE & WHITE: Used to mark when mandatory instructions need to be followed or places where it is desired to convey information of a general nature.

APPLICATIONS

Restriction/Prevention of access - Any area where accessibility needs to be restricted in order to protect either the individual or the area where works are being completed.
